140 Charolais 18-month-old Bulls**

WELCOME

Welcome to our First Annual
SMALL LIVESTOCK PRODUCTION SALE

Welcome to our second annual Small Livestock Production Sale!

First off, we'd like to sincerely thank everyone, including customers (both new and old), friends, family and neighbors who helped make our first bull sale a success. We're certainly humbled by your outpouring of support!

As we move into 2025, we continue to build upon and improve the foundation of our program, to provide functional cattle that work across all aspects of the beef industry and can perform in any environment and range condition. It's our goal to improve the bottom line for our customers.

Please don't hesitate to contact us if we can help your operation in marketing your cattle. At Sandhill Cattle Feeders, we have the resources and ability to market fed cattle to multiple packers in the West, through value added grid programs.

Additionally, we have the opportunity this year to work with and feed cattle for Country Natural Beef. We're therefore offering a 5% discount on all bull purchases to any bull buyer with a current GAP 4 certificate.

Again, this year we will have a consignment of SimAngus bulls from Bar CK Cattle Co. and the Alley family, which have a breed leading genomic profile second to none.

We look forward to seeing you on sale day, and please contact us if we can assist you in any way.

Wade, Cara, Paisley, and Marlie Small

SALE SITE & BULL VIEWING

The video auction will be held at the Winnemucca Convention Center.

GPS Address:

50 W Winnemucca Blvd., Winnemucca, NV 89445

Sale bulls can be viewed at Sandhill Cattle Feeders at any time now through the conclusion of the sale. The feedlot is approximately 12 miles from the Convention Center.

Feedlot GPS Address:

3300 Feedlot Rd, Winnemucca, NV 89445

HERD HEALTH

All bulls have been DNA tested free of BVD persistent infection through Neogen. We also work under the advisement of John Hepton, Performix Nutrition, on a year-round program to meet any needs from our environmental deficiencies. For a complete listing of our Health Protocol, please turn to Page 3 in this book.

SEMEN TESTING

All bulls selling have passed a rigid breeding soundness and fertility examination in the last 30 days performed by Advantage Veterinary Services, Dr. Travis Allen, Nampa, ID.

SUPPLEMENTAL INFORMATION

A supplemental sheet will be available on sale day with up-to-date performance information as well as Test Gain data for the SimAngus bulls. For a copy of this information prior to the sale, please contact Wade Small at (208) 243-1813. This sheet and any announcements from the block will take precedence over the printed material in the sale book.

BREEDING GUARANTEE

We will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all the sale bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price of a bull less the salvage value of the animal.

DELIVERY

Free delivery to Nevada and adjoining states. All deliveries are made at the buyer's risk. Bring your trailer on sale day and take \$100 off your purchase price for every bull hauled home on sale day.

BOARDING

Small Livestock will continue to feed the bulls until March 1, 2025, and beyond that date the cost associated will be \$4.00/day per head. As each animal becomes the risk of the purchaser as soon as sold, we strongly recommend a mortality insurance policy be taken out on any animal that remains at Sandhill Cattle Feeders.

LIVESTOCK MORTALITY INSURANCE

Mortality insurance on your purchases will be available through Livestock Marketing Insurance Agency. Arrangements can be made at settlement or through Jake Parnell (916) 662-1298.

TERMS AND CONDITIONS

Any announcements made from the block will take precedence over statements in the printed material. Cattle will sell under the suggested Terms and Conditions of their respective breed association (<http://www.simmental.org/site/userimages/sale%20terms.pdf>). Terms of the sale are cash, and all purchases must be settled for SALE DAY unless prior arrangements have been made. Cattle not paid within 30 days of sale will be assessed a 2% interest charge per month.

DISCLAIMER

Sandhill Cattle Feeders, Small Livestock, and Parnell Dickinson, Inc. assume no liability for accidents or injury that may occur. Attend the sale at your own risk.

INTERNET BIDDING

Web bidding and broadcast available through

as well as videos of all the sale bulls.

How to participate on...

1. CREATE AN ACCOUNT

Click "Register to Bid" on the top right corner of LiveAuctions.tv. Fill out the required information to bid online. Agree to the terms of service and finish with the "register" button.

2. REGISTER FOR A BUYER NUMBER

From the home page or the "all auctions" page, choose the sale you're interested in. Once selected, click the "request a buyer number" button. Verify your email address with the email verification link. To verify your mobile number, click "send token." Follow the steps to authorize your mobile device and click "submit."

3. BID SUCCESSFULLY

You will only have to complete the two-step verification process one time. After that, you will be able to immediately request a buyer number on any auction without verification. If you're a winning bidder, your lots will appear in your cart on the bottom of your screen. You will be contacted by the ranch or sale manager for your payment and shipping plans.

Bull Development and Health Program

Calf vaccination program for Charolais and SimAngus™:

3x (Branding/Precondition/Post Weaning)

- Titanium 5
- Vision 8
- Newport Labs Autogenous Pasteurella w/Histophilus

Fusogaurd Foot Rot Vaccine at weaning

Valbazen oral and Vetrimectin injectable wormer at weaning

Development Program:

The Charolais bulls are weaned in March and backgrounded for 45 days and are then turned out on meadows in Mountain City, NV in mid-May. Early October, bulls are hauled back to Sandhill Cattle in Winnemucca. They are revaccinated with Titanium 5, Vision 8, Fusogaurd and Dewormed with Valbazen oral and Vetrimectin injectable wormer. Bulls are acclimated to the feedlot growing ration, consisting of primarily barley silage, hay, potatoes and wheat. (50 Mcal NEg) for 3 weeks. An initial start weight is then captured. Bulls are weighed again 80 days later around mid-January and a daily gain is calculated.

The SimiAngus™ bulls are weaned early summer around July 1 and backgrounded on hay and supplement for 45 days. They are then acclimated to the feedlot growing ration and grown for 90 days when an initial start weight is captured a final weight is then taken 80 days later around the first of February.

DEVELOPMENT & HEALTH

A COOPERATIVE OF FAMILY RANCHERS

COUNTRY NATURAL BEEF

THE TIME TO FUTURE-PROOF YOUR OPERATION FOR THE NEXT CATTLE CYCLE IS NOW.

COUNTRY NATURAL BEEF IS A CO-OP OF RANCHERS, FOR RANCHERS

- **GUARANTEED MARKET PREMIUMS & ON-RANCH BENEFITS:**

- › Stable pricing in any part of the cattle cycle
 - » Market + \$20/cwt for cattle that hit grid
 - » Additional premiums for cattle that grade USDA Prime
- › Share in the equity and returns of the meat generated by the meat company
- › Access personalized and regional feeding and carcass data for informed decision making
- › Freedom to Operate - flexibility with genetics and ranching practices that meet our consumer demands on meat label claims (Natural, No hormones, Regeneratively raised, Pasture raised, USDA Choice).
- › Educational & grant opportunities
- › No member fees or dues

- **A COMMUNITY OF LIKE-MINDED RANCHERS:**

- › Nearly 100 ranches across 10 Western states

TAKE PRIDE IN A BEEF BRAND THAT CONSUMERS LOVE

- **COUNTRY NATURAL BEEF BRAND IS AVAILABLE IN MAJOR GROCERY STORES & RESTAURANTS**

Whole Foods, Burgerville, Sysco, Town & Country, and more

- **BENEFIT FROM A DIRECT CONNECTION WITH RETAIL PARTNERS & SHOPPERS WITHOUT THE WORK OF RUNNING YOUR OWN DIRECT TO CONSUMER MEAT COMPANY:**

- › A full time staff handles sales, marketing, and day-to-day operations of the meat company
- › You maintain the opportunity to share your ranch's story and connect with engaged consumers

JOIN US.

For more information and to apply, visit [Country Natural Beef Membership Page](#) or contact our VP of Live Cattle Arvid Carlson at acarlson@countrynaturalbeef.com.

Development and Marketing

As we continue purchasing, feeding and marketing more cattle through Sandhill Cattle Feeders, we hope to assist our customers with additional marketing options. We can background, finish, and market cattle through NHTC, Natural, and GAP programs. We can also market fed cattle through multiple packing facilities in the region, including True West Beef, in which we hold an interest. Moving forward, we can utilize this collective data in our efforts for breed improvement!

A new incentive for 2025:

We will be offering a 5% discount on all bull purchases to any bull buyer with a current GAP 4 certificate.

DEVELOPMENT & MARKETING

SMALL LIVESTOCK CHAROLAIS

At Small Livestock LLC, our family produces high quality Charolais and SimAngus cattle, designed to add value and efficiency to your operation. Born, raised and developed in northern Nevada, we focus on genetics that work; Cows that work on the ranch. Bulls that work in multiple production settings and environments. Feeders that work in the lot. And carcasses that work on the rail.

The Small Livestock ranch (and summer range) is located at 6,000 feet elevation, near the tiny town of Mountain City, Nevada. Formerly a bustling copper mining town, the now quiet ranching community lies 80 miles north of Elko, Nevada and approximately 16 miles south of the Idaho/Nevada border.

This steep and rocky terrain favors an atmosphere ideal for developing cattle built to function; Structure and utility are a must.

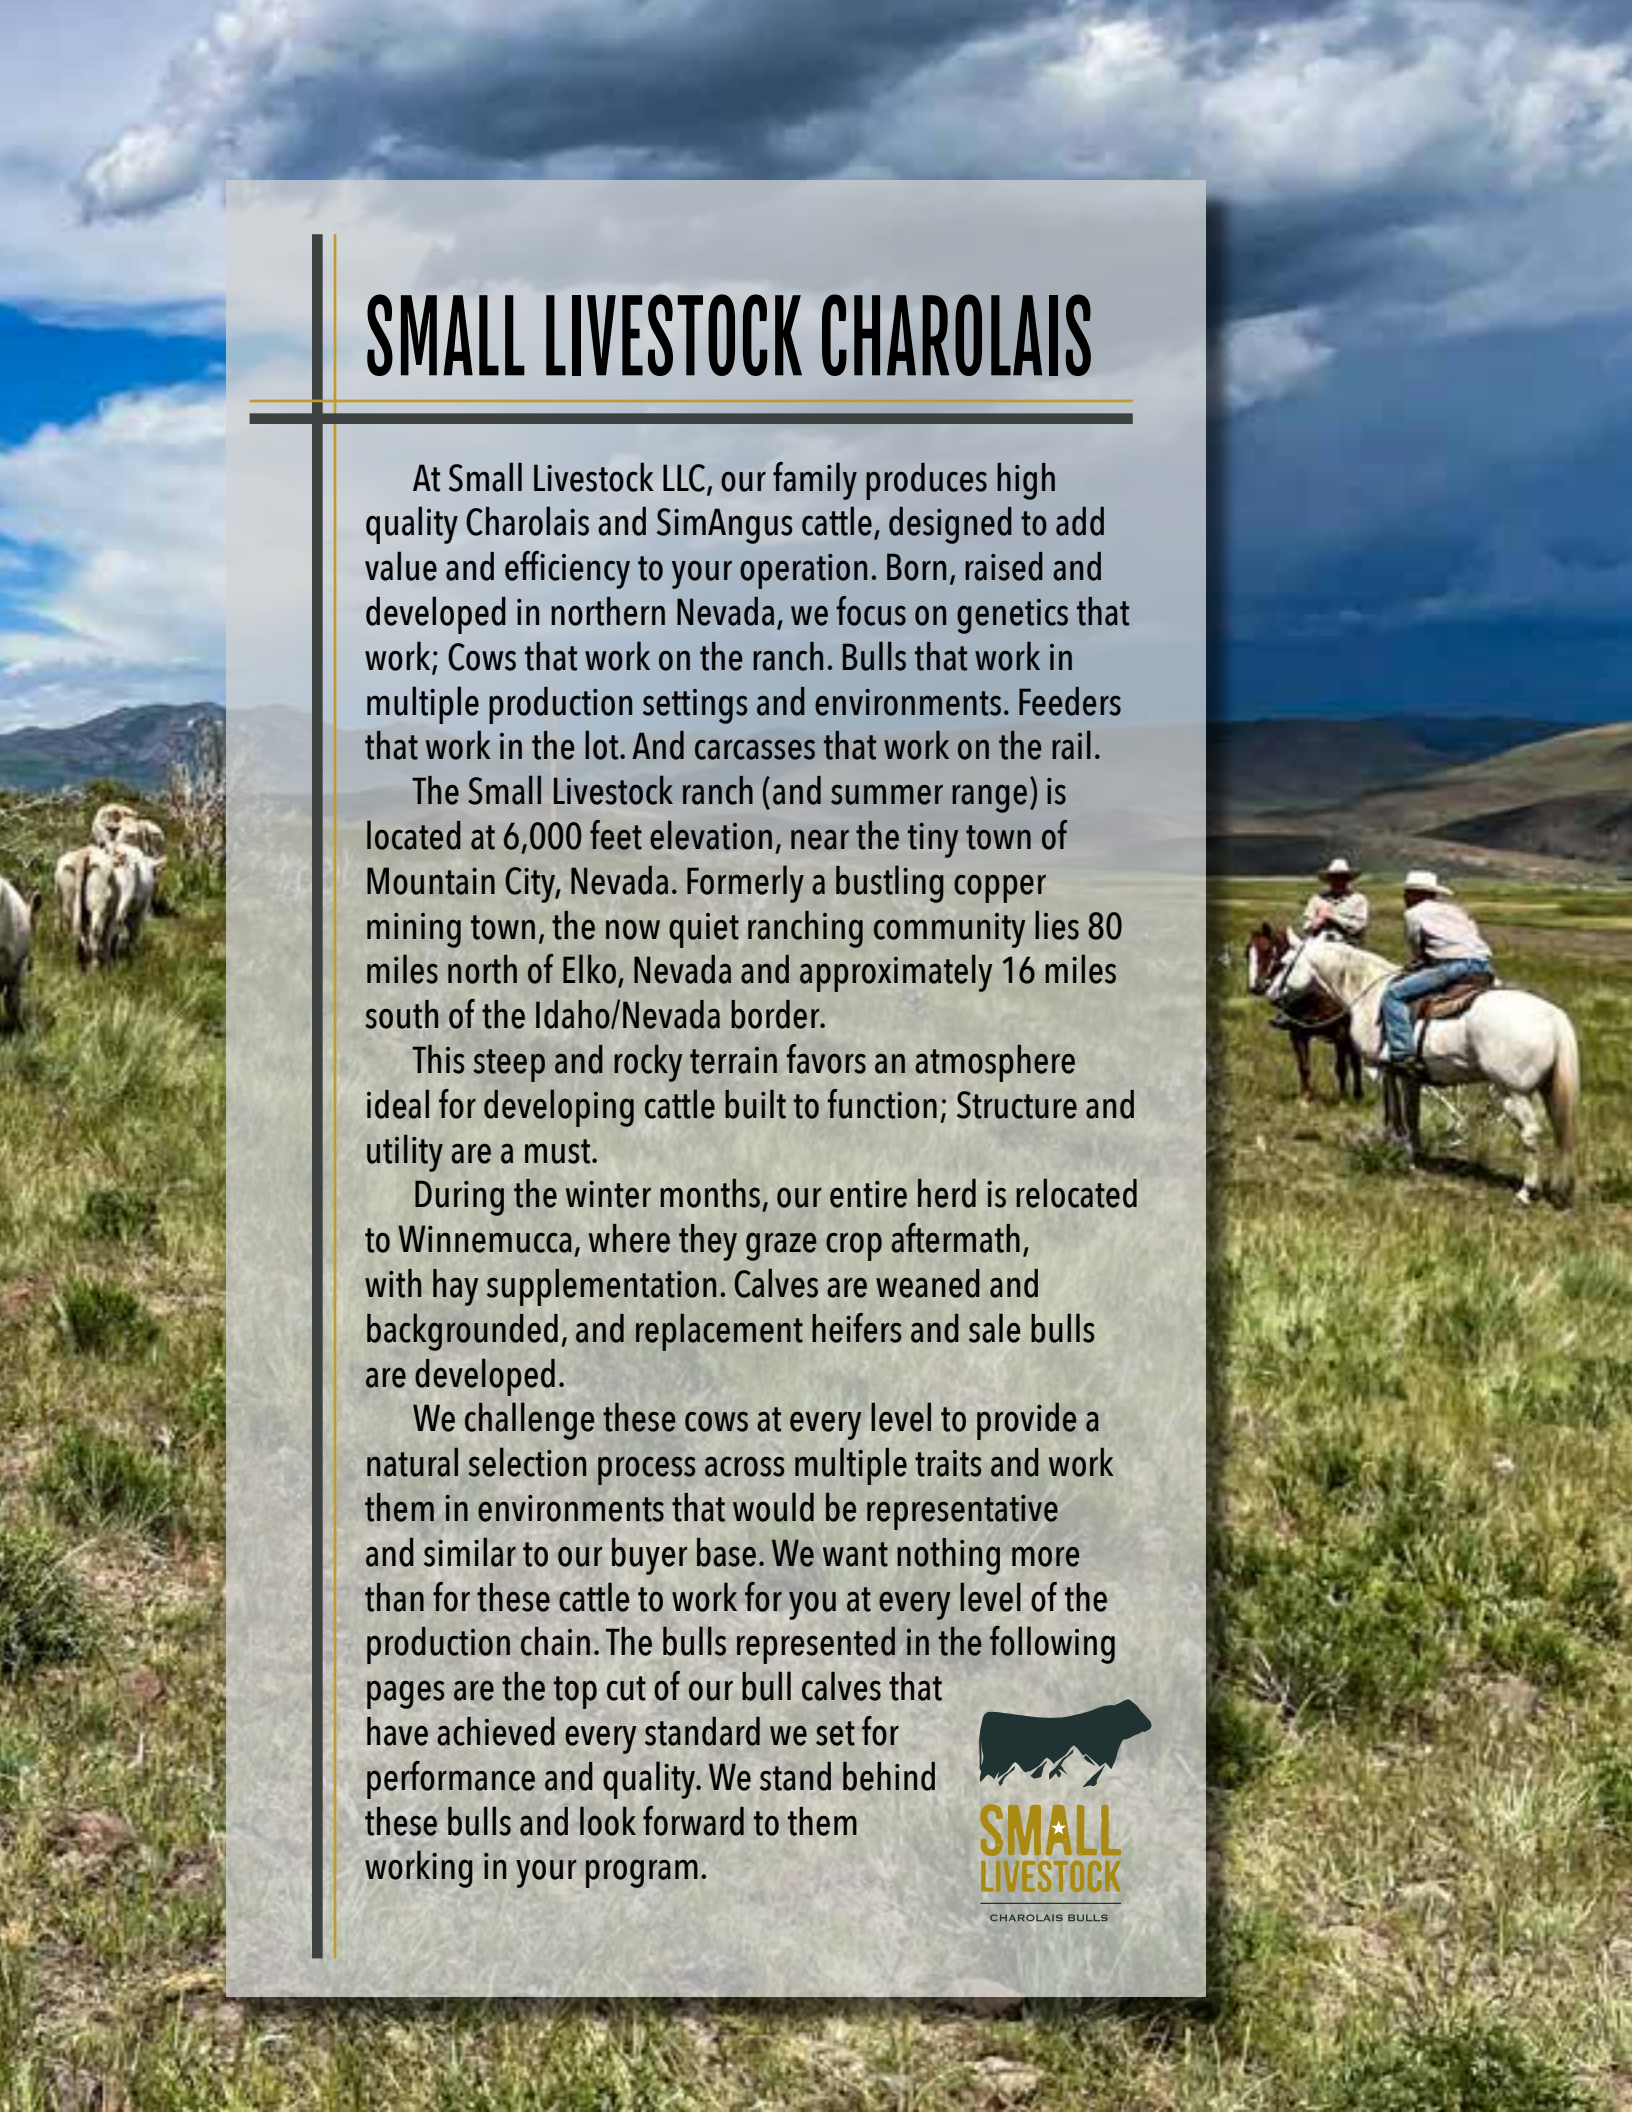

During the winter months, our entire herd is relocated to Winnemucca, where they graze crop aftermath, with hay supplementation. Calves are weaned and backgrounded, and replacement heifers and sale bulls are developed.

We challenge these cows at every level to provide a natural selection process across multiple traits and work them in environments that would be representative and similar to our buyer base. We want nothing more than for these cattle to work for you at every level of the production chain. The bulls represented in the following pages are the top cut of our bull calves that have achieved every standard we set for performance and quality. We stand behind these bulls and look forward to them working in your program.

**SMALL
LIVESTOCK**

CHAROLAIS BULLS

About Time - Sire of Lots 1-41

We selected ABOUTTIME from the 2020 Oakwater Ranch Sale in Nebraska where he and three full brothers led the sale off. He was the 2nd heaviest weaning of the flush with highest IMF scan as well. His first sons led off last year's sale were met with widespread acceptance as the high-selling sire group. The daughters look to be equally impressive. ABOUTTIME is a stout made, long sided bull with a powerful, square hip. When you get a bull with this much muscle mass and expression, the fact that he also happens to be in the top 8% of the breed for Marbling is only an added bonus.

ABOUT TIME SONS

Lead Time - Sire of Lots 42-55

We have been using LEAD TIME for three years now and love the results. He is an extremely well-rounded individual with excellent calving-ease and balanced growth. Being an About Time Y07 son, you know he's going to have top-end Marbling, but we also like the fact that he has top 1% breed rankings for both Udder and Teat score. LEAD TIME is an attractive made bull with outstanding foot quality and impeccable skeletal design. Compliment this with his moderate frame and overall do-ability; we expect the daughters out of these sons to have as much value as their steer mates.

LEAD TIME SONS

Whiskey - Sire of Lots 56-62

HC SS CL WHISKEY ON THE ROCKS is owned in partnership with Hebbert Charolais in Nebraska. He is a very complete, well-balanced bull that ranks in the better 40% of the breed for seven different traits and indexes. He's double-bred to the LT Bluegrass 4017 sire that has seen widespread use not only domestically, but international as well. We believe WHISKEY shows consistency in genetics, performance, and with his quality build and design; these sons should add uniformity in their resulting calf crops as well.

RIMROCK SONS

Rimrock - Sire of Lots 75-84

RIMROCK 9089 is a very complete sire with added length, a quality look, and he meets the high standard we have for feet and legs. We love the fact that genetically, he is in the top half of the breed for 12 different traits and indexes. He has a top 15% CW EPD while maintaining growth traits in the top 45% which is not easy to achieve. This is done through muscle and resulting yield, and these sons should add pounds for you the right way. This sire line has tremendous longevity as well as we turned out 9089's sire, HC RIMROCK 4247, on the mountain pasture this last fall at 10 years of age.

RIMROCK SONS

844H2 - Sire of Lots 85-88

844H2 is a son of Fink 8741 out of a straight Eaton bred cow that we picked up from NextGen Cattle Company in Missouri. He had outstanding individual performance there with a 114 weaning ratio, 114 yearling ratio, and scanned a 102 ratio for both Ribeye and %IMF measurements. Genetically, he ranks in the top 20% of the breed for YW and has an impressive suite of carcass EPDs including top 7% for Carcass Weight and top 2% for Marbling EPD. Consequently, this output potential elevates his Terminal Sire Index (TSI) into the top 15% of all Charolais sires.

Sandstone - Sire of Lots 93-99

RS SANDSTONE 075 is a Blue Rock 2403 son out of the E424 female who was our selection out of Cobb Charolais program in Montana. He's long bodied, good footed, and backed by a proven female that will add maternal quality to his genetic profile. The most recent son of E424 is featured as Lot 52 in this sale sired by Lead Time. As a yearling, SANDSTONE 075 charted a 111 ratio on his individual ADG test.

FORCE OF NATURE, RIMROCK, ABOUT TIME, NEW RESOURCE SONS

RED ANGUS X CHAR COMPOSITE BULLS

Each year we breed our yearling heifers to Red Angus bulls, and the resulting progeny have a very impressive and unique look about them. The Red Angus genetics are extremely complimentary to our specific Charolais lines, and we are always impressed at the level of uniformity in these bulls. That is not always the case in a true F1 breeding scenario, but these bulls were as popular or more than our purebreds in last year's sale, and this year's set looks to be as good or better.

Another advantage with this particular set of bulls is the fact that they are all out of two year-olds, so you are also getting access to the freshest genetics in our program.

Guidance – Sire of Lots 105-124

EGL GUIDANCE 9117 was the \$70,000 high-selling bull from the 2020 Eagle Pass Ranch sale in South Dakota. He offers proven calving-ease with excellent growth and a Marbling EPD in the top 25% of the breed. He is also an attractive, level hipped, well built individual with added length and depth of body.

Guest Consignor

BAR CK CATTLE COMPANY | CULVER, OR

On behalf of Bar CK, we want to say thank you first and foremost to the Small family for allowing us to continue to be a part of the Small Livestock Performance Tested Bull Sale. We have enjoyed working with Wade and his crew for the last few years not only helping us be able to continue in the cattle industry despite feed and resource scarcity but also utilizing our program as a base for developing his own SimAngus program. It is a breath of fresh air to work with someone whose goals align with our own. We are extremely proud of what Bar CK Cattle Company has to offer in this year's sale. These are cattle designed not just to work but thrive in rough conditions year after year and ultimately improve our customers' bottom line. If you have any questions about the bulls or the genetics, please feel free to reach out to us at any time.

Mike Alley

(541) 948-3521

Expected Progeny Differences (EPD): EPD are the most accurate and effective tool available for comparing genetic levels. In using EPD, the difference between two sires' EPD represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPD of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPD is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPD, A would be expected to sire 15-pounds more weaning weight (per calf) than B. Listed below are the units ASA EPD are expressed in:

- Back Fat (BF):** Inches of backfat.
- Calving Ease (CE):** Percent of unassisted births when used on heifers.
- Birth Weight (BW):** Pounds of birth weight.
- Weaning Weight (WW):** Pounds of weaning weight.
- Yearling Weight (YW):** Pounds of yearling weight.
- Maternal Calving Ease (MCE):** Percent of unassisted births in first-calving daughters.
- Milk (MLK):** Pounds of weaning weight due to milk.
- Stayability (STAY):** Percent of daughters remaining in the cowherd at 6 years of age.
- Carcass Weight (CW):** Pounds of carcass weight.
- Marbling (MRB):** Marbling score.
- Ribeye Area (REA):** Square inches of ribeye.
- All-Purpose Index (API):** Dollars per cow exposed under an all-purpose-sire scenario.
- Terminal Index (TI):** Dollars per cow exposed under a terminal-sire scenario.

- All-Purpose Index (API):** Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.
- Terminal Index (TI):** Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

\$Indexes: Though EPD allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$Indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPD and economics to estimate an animal's overall impact on your bottom line. The available \$Indexes are:

Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPD, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000).

REFERENCE

Justice - Sire of Lots 141-166

HA JUSTICE 30J is an outcross purebred sire that can inject more performance into his calf crop. On paper, he has an EPD profile with 10 traits ranking in the top 5% of the breed or better including a top 3% YW EPD and a top 1% Marbling EPD. This balance and output potential elevate his indexes to 204 for his API and 117 for his Terminal Index (TI). JUSTICE is out of a Tom Hook bred cow that excels in hoof and udder quality, and when you factor JUSTICE's top 4% breed rank for Docility and top 15% for Stayability, there should be excellent potential for replacement quality daughters as well. He is homozygous polled and homozygous black, and with 26 sons in the offering, this will be one of the largest sets of JUSTICE sons selling anywhere.

Vindicator - Sire of Lots 141-166

GW VINDICATOR 312E is a moderate framed ground pounder who is without a doubt one of the most impressive herdsires we have ever ran here in Oregon. He continues to impress with every calf crop. At 7 years old, he remains top 1% for API, TI, and Marbling. We may not have many more crops left coming directly from Vindicator, but his sons are impressive and designed to make an impact and will continue his legacy. He is homozygous black and polled with high accuracy calving-ease and an excellent suite of carcass traits that will add value to your resulting calf crops.

Escort - Sire of Lots 194-200

BAR CK ESCORT 1041J is a purebred calving ease specialist that tops the charts for Stayability, MCE, MARB, API, and TI. He's a balanced, smooth made, long bodied bull that travels with ease and plenty of bone and power to pass on to his calf crop. We expect his daughters to be the top of their contemporary groups and positively impact the bottom line.

Quigley - Sire of Lots 201-210

KBHR QUIGLEY C154 is the most dominant son we have used out of our cornerstone sire Bar CK Tebow, and he clearly demonstrates why we emphasize the influence of profitability traits in the cattle selection process. On the maternal side, Quigley's dam originated at Bar CK before going on to become a trusted source for herdsires at the Keller Broken Heart Ranch in Mandan, ND. Quigley is a homozygous black and polled super sire who ranks amongst the highest SimAngus bulls in the entire breed for several of our most desired traits including Whole Lifecycle Profitability, Marbling, and Stayability. The future of our cowherd has been entrusted in Quigley for several years. His ability to sire females with the moderation needed for our environment and building in longevity is unmatched.

Gallant - Sire of Lots 216-224

BAR CK/TBEF GALLANT 9125G layers GW Vindicator 312E and KBHR Quigley to combine their positive attributes. He's a moderate framed, soft made bull, designed to work in big rough country. However, he also excels for API, TI and Marbling. 9125G was one of our highest selling lots in the 2021 bull sale, and we have appreciated Wil Townsend's continued support of our program as 9125G works double time between Oregon and Montana.

GALLANT, WISDOM SONS

Beacon - Sire of Lots 229-246

IR Beacon E010 is an outcross herdsire selected to improve growth EPDs on our more maternally designed cows. He is homozygous black and polled bull with top end Profitability indicators. We find his sire group to be soft designed, free moving, and temperament is excellent as evidenced by his top 2% breed rank for Docility. His balance of calving-ease, growth, stayability, and marbling allow him to reach the elite 1% of all sires for both API and TI.

BEACON SONS

Triple Crown – Sire of Lots 247-261

GW TRIPLE CROWN 018C is a true spread bull that posts top 25% calving-ease with top 10% breed ranks for both YW and ADG EPD with an impressive suite of carcass traits that include top 3% Carcass Weight, top 1% Marbling, and top 1% Ribeye. He is homozygous black and polled, and also features a top 1% Docility EPD. These sons excel in structural integrity, muscle shape, and added capacity while maintaining excellent performance and do-ability.

Influence - Sire of Lots 262-267

Bar CK Influence 8103F is the product of combining the cornerstone herdsires into one eye-appealing, soft middled powerhouse bull. Bar CK Tebow worked for 10 years in our pastures, and his daughters and granddaughters are still Crystal's preferred female groups. Tebow stamped every positive trait he had into Influence, and on the bottom is one of Mike's favorite Target daughters. Influence is Top 2% or better in 6 traits (CE, BW, MCE, STAY, MARB, and API).

Mark 0033H - Sire of Lots 268-276

Bar CK Mark 0033H was the logical choice to replace his sire, Bar CK Target, as he is higher performing and more powerfully made. He also maintains the ability to make incredible replacement heifers. Mark is Top 1% in 6 categories, most impressively he boasts a (1.20) Marbling EPD and a (217) API. We find the MARK 0033H sons to be easy to handle and able to work in challenging environments.

REFERENCE

Target - Grandsire of Lots 268-288

BAR CK TARGET 3016A has been one of the most influential bulls in our program. He has not only produced multiple herdsires for seedstock use, but he is also leaving behind highly productive daughters working in diverse environments across the country. His Stayability EPD ranks in the top 1% of the breed, and these 13 year-old genetics still sit in the top 1% of the breed for calving-ease, marbling, and Docility. We have used multiple sons of this sire with higher performance and output potential, but TARGET 3016A has stood the test of time.
